Hoop House / Greenhouse Kit Instructions – Materials List

DIY Hoop House / Greenhouse Kits:

List of Materials used to build a greenhouse with our– Hoop House Greenhouse Kits

There are links located in this e-book – to use the control (Ctrl – should be bottom left on your keyboard) – hold ctrl and click on the link.

Table of Contents:

Potted Forest Hoop House Greenhouse Kit:

List: Materials Included with kit.....page 4

List: Other options we offer.....page 5

List: Materials from local Hardware store...page 6

List: Checklist for Hardware store items....page 8

Why do we not supply all items needed in our kit?:

We wanted to make sure that our kits were affordable for all so we have created a list of items that can be purchased at any local Hardware store.

This saves on shipping and allows our customers to use any items that they may already have around the house or yard. Reduce, Re-use, Recycle.

There are many ways to build a Hoop House or Poly tunnel and the Hoops themselves are the most important item.

The plans that are included is just one of many ways in which to build your Poly Tunnel.

And if you are part of our Newsletter we will send you updates and other information that we feel you may find interesting.

Thank you again for your interest – we look forward to hearing from you – Hoop House Kits.com – Ph: 604-800-3843.

Kit Contents:

Items that are included in your 10' x 10' Hoop House kit:

- a.** 3 x 10' high hoops (for 10'w x 10'h) – made of galvanized steel – will not rust

- b.** 10 x Brace bands - (brace band size isn't readily available at your local hardware store, so we include that; however there are a list of items that you can pick up at your local Home Depot.

- c.** 2 x brace bands for the top purlin.

- d.** 1 x CD - Picture illustrated How to instructions – showing step by step in building your own greenhouse

e. UV Protected Poly is another option that we offer and recommend – but is not included with the kit.

Extra Options that we offer:

As mentioned there are many ways to build a Hoop House, the most important thing are the hoops themselves.

However, we offer the following options for your convenience.

Contact Us at:

604-800-3843 for more info.

- 1) UV Protected Poly Covering (Will not break down in the sun).**
- 2) Extra Hoops (each additional hoop will add 5 ‘ in length to your Poly Tunnel)**
- 3) Side Rail (This is great if planning on adding a roll up side)**
- 4) Poly Clip or Wiggle Wire (Used to attach poly to the Frame)**
- 5) Anchor Poles (this is more of an option of convenience, as 1 5/8” tubing can be purchased from your local hardware store. We offer a pre-cut option).**

- 6) **Brace Bands (10 are included in our kit 10'x10' kit – extras are great for added support or if you would like the option of creating space for hanging baskets etc...)**
- 7) **UV Protected Patch tape.**
- 8) **Roll up crank handle or arm. (easily adjust the roll up side with a built in stop).**

Materials needed from your Local Hardware store:

- a. Screen door – an easy alternative to making your own (or build one using 2x4 lumber and poly plastic – or.... Use your imagination).
- b. 2x4's or 2x6's - wood for base (amount depends on the size you are building)
- c. 1' 5/8" Galvanize pipe - 6 x 30" Long Steaks used to support the Hoops in the ground. (These are also available through us – pre cut and ready to go for your convenience).
- d. Wire for Greenhouse bracing. Or... 1 3/8" tubing can also be used for added support.

- e. 1 x 10' length of top rail chain link fence tube –used for the top purlin (or use your imagination to make supports....).
- f. Wood Ground pegs (Cut out of 1”x1” wood) – we suggest Cedar or Pressure Treated to prevent rot.
- g. Wood Screws (For Wood base)
- h. Self Tapping Metal Screws

Please have a look at our Poly Tunnel Kit Instructions for added information. We look forward to answering any questions that you may have.

If you know of anyone that may be interested in one of these kits we really do appreciate you sharing this information with them. THANK YOU.

Hoop House / Greenhouse Kit Instructions – Materials List

Below is a Checklist or Shopping list of some of the items that you may need:

Parts List to complete Your Poly Tunnel Greenhouse:

There are so many ways to complete the build of a Poly Tunnel this is just somewhat of a checklist to help

you sort out the items that you may need or want to use to complete your Poly Tunnel.

If you have any questions, be sure to give us a call at 604-800-3843
or e-mail us at HoopHouseKits@gmail.com

Quantity:	Description:
	Included Items: (for standard 10'x10' Kit)
3	Complete Hoops (Come in 6 pieces total) Additional Hoops can be added for a longer greenhouse
10	Brace Band (1 3/8")
1	CD Booklet Instructions

Items needed to complete the Poly Tunnel Greenhouse

Piping and tubing can be found in the Chain link fence section of the store.	
	10' 4" (1 3/8" diameter) Pipe for Perlin or Backbone of your Greenhouse
	1 5/8" Pipe (7' 6") - These are the Ground stakes for securing your hoops in the ground 6x30"

Hoop House / Greenhouse Kit Instructions – Materials List

Wood Items (Cedar or Pressure Treated lumber is recommended):

For framing in the ends, 2x4's are suggested.

It is your choice to use 2x4's or 2x6's for the bottom wood frame.

Or to save on cost, a trench can be dug on either side of the greenhouse to cover and secure the poly covering (Please refer to instruction Booklet for more information).

	Wood Items:
	2'x4' (12')
	2'x4' (10')
	2'x4' (8')
	2'x6' (12')
	2'x6' (10')
	2'x6' (8')
	1 x 2 Wood Strip (8')
	Cedar Stakes (2"x2" pack of 25) or you can make your own.

	Metal Items:
	Washers
	Hose Clamp (3")
	Pipe Strap (1/2" x 10')
	AirCraft Cable (3/16")(per ft.)
	Fasteners for AirCraft Cable (2 pack)
	End Frame Bolts

Hoop House / Greenhouse Kit Instructions – Materials List

	Carriage Bolts (5/16"x1 1/2")
	Washers
	Wood Screws
	Tek Screws #12 x 3/4" (self tapping metal screws).

	Cement (for securing the ground stakes. Can be hammered in but cementing is recommended)
--	--

Other Options that we offer: Please contact us for more information -
604-800-3843 or send us and e-mail at: HoopHouseKits@gmail.com

	We also Offer:
	Additional Hoops (each additional hoop will add 5ft in length to your greenhouse).
	Poly Covering (6 mil UV protected) per sq. ft. (864 sq. ft. for 10'x10')

Spring Lock and Poly Clip are also available, as illustrated in our Greenhouse instruction Booklet.

The greenhouse can be completed without these items; however they are handy to use and have

	Spring Lock and Roll up Ventilation:
	Spring Lock Complete (12' pcs - aluminum base & Spring Inserts) per ft.
	Spring Lock Base only (12' pcs)
	Springs Only (plastic coated 6'6" pcs.)per ft.
	Roll Up Crank Arm
	Poly Clip (Aluminum Clip for Roll up sides)per ft.

Completing the Door:

Hoop House / Greenhouse Kit Instructions – Materials List

Use a Screen Door or make one yourself out of wood and Poly plastic covering
